## Hedge accounting under IFRS

[Martin Svitek](#)

The training explains mechanics of hedge accounting as prescribed by IFRS 9 with focus on two most common type of hedges – fair value and cash flow hedge. It covers all main hedge accounting requirements and discusses their relevance for accounting practice. Comprehensive examples are focused on interest rate risk which is typical of financial institutions. They also include documentation and testing of hedge effectiveness.

### Training alternative:

- possibility to focus only on IAS 39 requirements (for entities using the option in IFRS 9 that IAS 39 can still be applied for hedge accounting)
